

AUTO VICTIMS DOING NICELY

Big Machine Rescued and
Found Damaged Less Than
Was Supposed.

F. Arnold, owner of the big Royal Tourist automobile which ran over an embankment in Parley's canyon Sunday afternoon, went to the scene of the accident yesterday and after two hours' work succeeded in righting the car and getting it back on the road. Mr. Arnold was accompanied on the trip by Carl Larson, who was driving the car at the time of the accident.

When the car was placed on the road it was found that the engine was uninjured and the return trip to the city with the car was made on its own power. The glass front is demolished and the fenders are twisted out of shape. The rear of the car is bent in several places, but the damage to the machine is not as serious as was believed.

"We were not traveling more than 10 miles an hour at the time of the accident," said Mr. Larson last evening. "The accident was caused by the machine striking a soft place in the road and it was from that and not because of hitting a rock that the car went over the embankment. The soft place was washed out, was hidden by a big willow bush."

Mrs. Crooks, who was the most seriously injured member of the party, was removed from the hospital today and taken to her home. Mr. Loveloy was suffering some pain last evening, but will be able to get again in a few weeks. The other members of the party were able to resume their usual duties yesterday and did not seem any the worse from the accident.

AMUSEMENTS

F. Auerbach & Brother entertained their employees at the performance of "By Right of Sword" at the Bungalow last evening. Good seats had been reserved in the body of the house, and 175 of the employees and their friends occupied them.

A telegram has been received stating that twelve carloads of steel for the new Mission theatre had left Kansas City. The shipment is traveling by fast freight and is looked for about tomorrow or next day. The foundations for the new theatre are about completed and at the present rate all will be in readiness for the steel work when it arrives.

There is a real live play at the Bungalow this week, which has been drawing deservedly large houses. Ralph Stuart, in "By Right of Sword," is furnishing one of the best entertainments given in any Salt Lake theatre for a long time. He is an actor of ability, with a handsome stage presence, and with the support of the entire Willard Mack stock company handles the drama in a style that is entirely satisfactory. Next week "The Transgressors," a comedy of deep human interest, will be given. Following that the company will go to the Colonial for a scenic production of "At the Rainbow's End," by Franklin Fyles, one of the most beautiful plays dealing with western scenes when there was a real frontier.

A good house greeted the second performance of "A Message from Mars" at the Colonial last evening.

This week's bill at the Orpheum is a little shade better than any that has been given lately. In addition to a wide variety of acts, every person and animal taking part is excellent. Perse and Mason, the headliners, possess beautiful voices, and appear in a delightful little sketch which has action and comedy and allows of the introduction of some good song numbers.

RHYTHM IDYLS

MUCH ENJOYED

The audience which turned out last evening to hear Helme Helme in her rhythmic idyls enjoyed a rare treat in the way of entertainment, for seldom has a similar affair been heard in Salt Lake. Not only were the readings given in an exceptionally fine voice and manner, but they were in the highest sense interpretative, giving the meaning and idea of the meaning underlying the reading.

Her first group was a series of word pictures by Helme, a big poem in a group, composed of a minuet and a Spanish poem by Walker, and still again in one of Bon King's enjoyable plantation poems and an Oriental and a Chinese poem. Several of the readings had musical accompaniment, and they were given in appropriate costume.

Mrs. Fred B. Jones sang two songs, "My Dreams" and a serenade, and later "June" and Mrs. Harry Chapman and Dr. C. W. Ebaugh furnished instrumental music. The audience was a most enthusiastic one and the evening was well filled.

RAILROAD BRIEFS.

The Oregon Short Line, Southern Pacific and Union Pacific have adopted a system of calling passengers that should appeal to all late sleepers. Hereafter the Pullman porters will each night ask the passengers the hour on which they would prefer to be called and they will not be disturbed before that time.

Twelve 50-foot electric cars for the Salt Lake & Ogden railway have been ordered by the Bamberg company from the Jewett Car company.

Twenty-four young ladies, who are the prize winners of a contest inaugurated by the Fort Worth, Tex., Star-Telegram, will arrive in Salt Lake on May 12 over the D. & R. G. railroad.

J. E. Bury, general passenger agent of the Oregon Short Line, left yesterday on a business trip to Chicago.

H. A. Peters, secretary of the Ellenberger Construction Co. of Chicago, arrived in Salt Lake yesterday to complete the preliminary plans for the construction of the Denver & Rio Grande depot in Salt Lake.

"LEAD SMELTING."

Subject of Lecture This Evening at the Y. M. C. A.

A. H. Richards, assistant superintendent of the A. S. & R. Co. smelter at Murray, will deliver a lecture tonight at 8 o'clock in the lobby of the Y. M. C. A. on the subject "Lead Smelting." This will be the sixth of a series of popular mining lectures given under the auspices of the chemistry and metallurgy class of the association institute. An invitation is extended to the public. Opportunity for questions and discussion will be given at the close of the address.

NEWHOUSE "WISES UP" ON CITY'S AFFAIRS

Samuel Newhouse was a visitor at the meeting of the city council last evening and sat throughout a large portion of the proceedings.

"I am interested," he said on leaving, "and I am going to come often. I have a notion that I may want to represent my ward in this body some day."

RATS CAUSE FIRE.

Parral, Mexico, May 10.—Rats gnawing at matches in a small store at Maturana started a fire. The fire reached a quantity of gunpowder and the resultant explosion caused the fire to spread to other buildings. Almost the entire village was burned. One man was killed in the explosion.

A private safe may be rented in the fire and burglar proof vault of the Salt Lake Security & Trust Co., 32 up Main street, \$2.00 per year and upwards.

HIGH SCHOOLS IN DEBATE.

Eureka Girls' Team Defeats Boys' Team From Ogden High School.

Eureka, May 8.—The Eureka high school debating team, known as the "girl team," again scored a victory last night at the Odd Fellows' hall, when they defeated the Ogden high school team in the last, but one, contest in the debating league of the Utah high schools and academies. "Resolved, that the United States should permanently retain the Philippines," was the matter for discussion. Twice the Eureka high school team has won the debate while taking the negative side. Last evening the team was on the opposite side and again won. There was a very large and appreciative audience, and Robert Towers, principal of the Mammoth public school, Mr. Fitch and Dr. Laker were the judges. The young ladies, who have been under the careful tutelage of Professor Baker of the Eureka high school, astonished everybody by the masterful manner in which they conducted their side of the argument. Their names are Miss Mary Welch, Miss Gertrude Brown and Miss Amanda Durfee. The members of the Ogden team were as follows: Stephen Keogh, Claude Corey and Fred Allen. An instrumental selection was rendered by Miss Bessie Tyree and a vocal solo by Miss Genevieve Sullivan.

DEATH OF MRS. GALEY.

Kaysville, May 8.—Mrs. Eliza Gailey, wife of David Gailey of Syracuse, died at the family residence about 7 o'clock this morning, after a long illness from pulmonary troubles. Her condition has been such for several months that it was realized that the end was near. The deceased was a native of England, where she was born Sept. 9, 1865. She leaves a husband and eight children, the youngest 18 months old. She is also survived by her father, three brothers, Robert and Alfred, and a sister, Mrs. Edward Edwards of Kaysville, and a sister, Mrs. Edward Earl of Farmington. Arrangements for the funeral have not yet been made.

The city council has completed the installation of street lights on Main street, and at the Salt Lake & Ogden depot, the opera house and ward meeting house. Seven lamps have been placed in position, each of 200 candle power. They are under control of an automatic switch, with a clock-work attachment, so that they can be cut out at any hour of the night as desired. The lights were turned on last night for the first time, and they were pronounced satisfactory. It was a much-needed improvement, and the council is being congratulated on having made this start toward a general street lighting, which it is hoped will be accomplished.

City Council George D. Bennett has resigned his office and will remove with his family to Salt Lake, where he has a position with the Metropolitan Life Insurance company. His resignation leaves three members of the city council, George H. Blood, having resigned prior to moving to Preston, Ida. The matter of filling the vacancies did not come up at the meeting Thursday night, but it is known that Mayor Phillips is favorable to the appointment of John W. Thornley and Hyrum Stewart to the positions. These gentlemen can be induced to accept. The fact that both of those who resigned are Republicans, while Mr. Stewart is a Democrat, will weigh heavily against him in the latter's appointment, it is thought because of the general desire for the appointment of men who are favorable to municipal improvements. The two men mentioned are progressive business men who may be relied upon to do things, if they accept the positions.

Horticulturists have reached the conclusion that the damage done by the frost to the peaches and other fruit was not quite so serious as was at first reported, but it seems clear that from half to three-fourths of the crop of stone fruit was destroyed. The growers are finding some consolation in the belief that the prices will be higher, and that partial compensation for the loss will be realized from that fact.

BINGHAM BRIEFS.

Bingham, April 8.—Forty students of the Colorado School of Mines, accompanied by four instructors, are spending a few days in camp inspecting the large mines.

Six thousand one hundred and twenty-eight cars of ore were shipped out of Bingham during the month of April.

The funeral of Charles H. Nestell of Highland Boy, the 6-year-old son of Mr. and Mrs. Thomas W. Nestell, who died of pneumonia last Thursday, was held at the home yesterday at 1 o'clock in the afternoon. Burial took place in the Bingham cemetery.

Garret Wilkins, for many years superintendent of the Utah Copper company, has resigned his position and, accompanied by his wife, will move to Humboldt, Nev.

Mrs. Alfred Burton of Upper Bingham claims to have been robbed of \$450 one day this week by some unknown party who forcibly took it from her stocking. The officers are investigating the affair.

Deputy Sheriff James Hair includes Upper Bingham in his circuit, with headquarters in the Richards building.

REXBURG, IDA., NOTES.

(Special Correspondence.)

Rexburg, Ida., May 3.—Commencement exercises will be held at the Ricks academy this week. Final examinations will be held Monday, Tuesday and Wednesday. On Monday evening the juniors will give a program. The opera "Sylvia" will be presented Tuesday night by the choir of which Professor C. J. Engar is conductor. Professor D. W. Cummings will be stage manager. Commencement exercises of the preparatory department will be given Wednesday night. There will be over forty graduates from this department. The class address will be given by President James E. Duckworth of Blackfoot, and presentation of diplomas by Principal E. C. Dalby. A track meet between the various classes will take place on Thursday afternoon. Exercises for the high school department will take place on Thursday night. From the various high school courses there will be fifteen or sixteen graduates. Principal E. C. Dalby will deliver the class address, and President Thomas E. Bassett will present the diplomas. A game of baseball between the Ricks and the St. Anthony high school will be played on Friday afternoon. The week's program closes with the alumni ball on Friday afternoon. The officers and faculty of the institution are highly pleased with the work that has been done this year. A great interest has been manifested by the students in regard to the alma mater. One class is erecting a \$500 main entrance to the campus. Another class will build a students' entrance gateway at the northeast corner. Much improvement was made by the students on Arbor day. A movement is now on foot to secure the students' entrance to the grounds will be surveyed and laid off for lawns. Two members of the faculty are leaving to go on missions. Professor Lewis W. Larsen of the English department will go to the eastern states, and Professor D. W. Cummings of the history and elocution department will go to England. It is likely that all the other teachers will remain.

His edition of the Student Rays, the students' paper, will be out for commencement. It will contain over twenty pages of culture. The write-up will be interesting and humorous. C. G. Keller is home again from Victor, Ia., where he went to attend the funeral of his father. About a year ago Mr. Keller went east to attend the funeral of his mother. The weather continues dry. There was but little precipitation during the entire month of April, and so far but little this month. There is not enough moisture in the ground to germinate seeds.

PRAIRIE FIRES.

Winnipeg, May 10.—Fifteen families have been burned out in the Rush Lake, Saskatchewan district, by prairie fires. Two children losing their lives and others being badly burned.

A private safe may be rented in the fire and burglar proof vault of the Salt Lake Security & Trust Co., 32 up Main street, \$2.00 per year and upwards.

Marvelous Prescription For All Stomach Distress.

Rejoice and be glad ye army of nervous wrecks and dyspeptics. No more will you need to exclaim in that hopeless tone, "Oh, my poor old stomach."
